The mar shal has never been able to serve him, and no one in the vicinity of his home appears to know where he is.

The Cardin Outrage.

Mr. Cardin was an independent tobacco buyer and the most prominent Populist in Kentucky. He had been repeatedly warned by the night riders, but he paid no heed to them. The night of February 8 last they made a raid in force on his home and shot it up. But Mr. Cardin was out of the state at the time, and the raiders contented themselves with burning his warehouse and leaving a warning

This suit of Mr. Cardin's is the eighth to be filed in the federal court here against the night riders within twelve months. In the first case, that of Robert Hollowell against the Lamasco raiders, of which these defendants are alleged to be a part, a verdict for \$35,000 was awarded and the suit compromised with those of Mr. Hollowell's wife and son. Three suits, aggregating \$100,000 for the Birmingham raids are in process of

Dies-Lingering Death From Exposur to Cold Though Threat Is

TWO HEART-BROKEN WOMEN.

Carthage, Ill., Jan. 12 .- Rev. John H. Carmichael, who last Tuesday night in the little Methodist church at Rattle Run, Mich., killed Gideon Browning, a carpenter, and then com mitted suicide here today, in a long written confession which was found in his suit case, told in detail the story of the killing of Browning; how he had fallen a victim to Browning's hypnotic power, and meeting him in the church Tuesday night was compelled to obey every command; how finally when Browning attacked him with knives, he (Carmichael) defended himself with a hatchet. After finshing his victim with a hatchet, he said, the red hot stove in the church room suggested itself as the best method of disposing of the body. Before putting the body in the stove however, he exchanged some of the dead man's clothing for his own which had become bespattered with

IS FALSE ALARM OF FIRE, THINK COMMISSIONERS.

Patrolman, Who "Jeshed" on Subject Loses Ten Days-Uniforms Must Be Worn.

"Joshing" did not suit the board of police and fire commissioners last night when they met to investigate the charges of turning in a false alarm preferred against Patrolman W. F. Owen. For the fun the commissioners gave Patrolman Owen layoff of ten days without pay, and gave strict orders that, if now in practice, that the custom of patrolmer calling up other policemen and having social chats must cease while on duty. In other words the commissioners de cided that social calls should be paid when not working.

Last Friday night Patrolman Owen called up Patrolman E. H. Morris, who was at Fifth and Norton streets, and began "joshing" about a supposed fire at Third and Elizabeth streets, Patrolman Morris quickly gave an alarm to the fire department, and companies Nos. 2 and 4 made the run. Fire Chief Wood made an investigation, and accused Patrolman Owen of turning in the alarm. Pa trolman Owen did not deny the charge, but explained that he was "only joshing."

The commissioners issued orders to Chief James Collins to see that all of the patrolmen are supplied with uniforms. Also the patrolmen were instructed to keep a neat appearance

COTTON STEADY

DEMAND FOR COTTON WAS EX CELLENT AT HIGH PRICES.

Memphis 16 Cent Higher on the Week-Large Sales at Liverpool -Receipts Lighter.

Memphis. Jan. 12.-Prices closed the short Saturday's session with losses of 1 and 2 points in active contracts. The tone was steady in the face of bulls realizing for profits over the Sunday holiday and following the ginning report. The majority of the trade went over into the new week hopeful and confident of higher prices, whatever may be the immediate course of the market.

The ginning report showed there was ginned to January 1, 12,470,000 bales of cotton, and naturally the chief fact of the day. It showed a decrease in the rate of gluning from the two weeks preceding December 13 and on this basis bulls based justification of their oft-repeated claims that a perpendicular drop in the gin ning would soon be witnessed, but many in the trade were not willing to concede that the decline in the rate of ginning was at all perpendicular since from December 13 to Januar; 1 there was ginned 568,000 bales which was only 100,000 less than oduring last season, when the ginning during this period was the heaviest on record. There are strong probabilities that during the coming week claims for a crop in excess of 13,500,-000 bales will be pushed with some vigor. On the face of the returns they are not unreasonable.

Liverpool was sharply higher, closing 5@6 points sterling advanced. which was all an unexpected rise, but New York failed to measure up to this, and as a result Liverpool is due 4 points decline Monday. The large spinners' takings and the small increase in the visible supply were prob ably the factors in this advance. The demand for goods from China is better in both American and English markets, and this is always a factor with the English minds which will easily get bullish on an expanding

Southern spots markets were without feature as is usual on Saturdays. In Mempris sales were 1,800 bales with quotations unchanged.

When the ginning report is looked at in detail it is seen that the heaviest ginning during the last two weeks in December was in Oklahoma, Texas, Arkansas and Mississippi. It seems evident, therefore, that the Oklahoma and West Texas crop is late and that in the lowlands of the other two states there was considerable late picked cotton. In South Carolina only 46,000 bales were ginned in the time and in Alabama 41,000 bales. The returns for the entire eastern district were light, but it seems with Georgia already reported 1,934,000 bales that the crop might easily exceed 2,000,000 bales for the state and establish a record.

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Urie acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acrid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism Book on Rheumarelief and comfort to those who suffer with Rheumatism Book on Rheumatism and any medical advice free to all who write. DORANDO'S HEART IN BAD SHAPE AFTER RACE, SAYS DOCTOR

By Dr. Jos. Creamer.

"I examined Dorando immediately after he was carried from the track. His heart was in a bad shape and he was in a state of total collapse. In my opinion, the condition of his heart was due partly to overstimulation. His handlers gave him stuff from a bottle which they said was coff e. Even coffee taken in such quantities would be likely to affect his stomach and cause his collapse. There wasn't a bruise on him to show that the fall did any damage."

It has been a part of our mission to exwill aet together in the matter of the plain to people that the drug, caffeine, in coffee

seriously affects the stomach, heart and nerves of some people (a good many).

If you want health and the power to do things and win in the race for any kind of supremacy you better trim off the handicaps-and coffee is one.

It is joy of the keenest sort to be entirely well.

Try it.
